Billanapalli, AP, India

Professional Summary

Results-driven Full-Stack Software Developer specializing in the MERN stack (MongoDB, Express.js, React, Node.js) to build scalable, production-ready web applications. Proficient in architecting fortified RESTful APIs with JWT authentication and RBAC, optimizing database queries for high-performance data retrieval, and ensuring code reliability through rigorous Postman testing and Git-based version control.

Core Skills

Languages: JavaScript (ES6+), Java, Python, HTML5, CSS3, SQL
Frontend: React.js, Bootstrap, Material UI, Axios
Backend: Node.js, Express.js, REST API Development
Auth / Security: JWT Authentication, Role-Based Access Control (RBAC), Session Management
Database: MongoDB (CRUD operations, indexing strategy), SQL (Oracle DB)
Tools & Practices: Git/GitHub, Postman, Wireshark

Professional Experience

Srinidhi Innovative and Infosoft Pvt Ltd — Bengaluru, India
Full-Stack Web Development Intern — *08/2025 – 11/2025*

- Built a MERN-stack application by designing RESTful APIs for efficient CRUD operations; implemented robust server-side validation that improved data processing speeds by 30% and reduced average API response time by 25%.
- Architected an Axios HTTP client with automated JWT interceptors and silent token-refresh logic, decreasing session drops by 20% and improving application stability for approximately 150 active users.

CareCs — Hyderabad, India
Cybersecurity Intern — *11/2025 – 01/2026*

- Monitored real-time network traffic and managed firewall configurations, securing 200+ enterprise endpoints and maintaining 99.9% network uptime across the organization.
- Conducted 15+ security audits and vulnerability assessments, identifying and remediating 10+ critical risks to reduce the overall attack surface by an estimated 40%.

Technical Projects

Library Management System — *01/2025 – 05/2025*
Tech Stack: React, Node.js, Express, MongoDB, JWT

- Developed a centralized platform to automate multi-college library operations, streamlining administrative workflows and reducing manual overhead for 5+ institutions.
- Designed optimized MongoDB schemas with strategic indexing, cutting average query retrieval time by 40%.
- Secured backend endpoints using JWT authentication and RBAC, protecting sensitive user data across all API routes.

Portfolio Web Application — *06/2025 – 08/2025*
Tech Stack: React, CSS, JavaScript, Automated Pipelines

- Deployed a fully responsive portfolio website showcasing technical projects with an optimized UI/UX, achieving a 95+ Lighthouse performance score.
- Implemented an event-driven contact pipeline to reliably capture visitor messages, reducing manual follow-up response time by 50%.

Certifications & Achievements

- **Certifications:** Oracle Database Management Professional (SQL), Full-Stack Web Development Professional Certificate, NPTEL Internet of Things (IoT).
- **Languages:** English (Proficient), Telugu (Native).

Education

SIMATS Engineering — Chennai, India
B.E. in Computer Science (Cybersecurity) — *08/2023 – 05/2027*
